

## BRAND PERFORMANCE CHECK

---

FNG International NV

PUBLICATION DATE: JUNE 2018

this report covers the evaluation period 01-01-2017 to 31-12-2017

## ABOUT THE BRAND PERFORMANCE CHECK

Fair Wear Foundation believes that improving conditions for apparel product location workers requires change at many levels. Traditional efforts to improve conditions focus primarily on the product location. FWF, however, believes that the management decisions of clothing brands have an enormous influence for good or ill on product location conditions.

FWF's Brand Performance Check is a tool to evaluate and report on the activities of FWF's member companies. The Checks examine how member company management systems support FWF's Code of Labour Practices. They evaluate the parts of member company supply chains where clothing is assembled. This is the most labour intensive part of garment supply chains, and where brands can have the most influence over working conditions.

In most apparel supply chains, clothing brands do not own product locations, and most product locations work for many different brands. This means that in most cases FWF member companies have influence, but not direct control, over working conditions. As a result, the Brand Performance Checks focus primarily on verifying the efforts of member companies. Outcomes at the product location level are assessed via audits and complaint reports, however the complexity of the supply chains means that even the best efforts of FWF member companies cannot guarantee results.

Even if outcomes at the product location level cannot be guaranteed, the importance of good management practices by member companies cannot be understated. Even one concerned customer at a product location can have significant positive impacts on a range of issues like health and safety conditions or freedom of association. And if one customer at a product location can demonstrate that improvements are possible, other customers no longer have an excuse not to act. The development and sharing of these types of best practices has long been a core part of FWF's work.

The Brand Performance Check system is designed to accommodate the range of structures and strengths that different companies have, and reflects the different ways that brands can support better working conditions.

This report is based on interviews with member company employees who play important roles in the management of supply chains, and a variety of documentation sources, financial records, supplier data. The findings from the Brand Performance Check are summarized and published at [www.fairwear.org](http://www.fairwear.org). The online [Brand Performance Check Guide](#) provides more information about the indicators.

## BRAND PERFORMANCE CHECK OVERVIEW

FNG International NV

Evaluation Period: 01-01-2017 to 31-12-2017

MEMBER COMPANY INFORMATION	
Headquarters:	Mechelen, Belgium
Member since:	01-01-2017
Product types:	Fashion, Sportswear
Production in countries where FWF is active:	Bulgaria, China, India, Romania, Tunisia, Turkey
Production in other countries:	Belgium, France, Germany, Italy, Peru, Poland, Portugal
BASIC REQUIREMENTS	
Workplan and projected production location data for upcoming year have been submitted?	Yes
Actual production location data for evaluation period was submitted?	Yes
Membership fee has been paid?	Yes
SCORING OVERVIEW	
% of own production under monitoring	69%
Benchmarking score	54
Category	Good

## Summary:

FNG International NV has met most of FWF's performance requirements during their first year of membership. In 2017 the company organised FWF audits for main production locations and their CMT subcontractors in Turkey and China. In addition they used and showed follow-up on external audits and fulfilled monitoring requirements for some production locations in Portugal. This resulted in a monitoring percentage of 69%. This result, combined with a benchmark score of 54, results in a Good rating.

FNG International NV consists of a number of Dutch and Belgium brands. In 2017, the Belgium brands (Baker Bridge, Kiekeboe, Fred & GInger, Fred & Ginger Sister, Ginger, CKS, Superstar, Limon, Hilde&Co, Friday) joined as one FWF member company. As 2017 has been the first year of FWF membership for FNG, the company put a lot of effort in developing clear procedures and policies that will be fully implemented in 2018. During the performance check the company was able to show clear efforts and understanding of FWF's way of working, specifically related to human right's due diligence in general and for specific countries and supplier evaluation procedures. FNG cooperates on its human right's due diligence with all its brands, both FWF and non-FWF members to increase understanding about human rights issues and increase leverage at production locations to follow-up on audit findings.

FWF recommends FNG to consolidate its supply base by limiting the number of suppliers in its 'tail end'. To achieve this, members should determine whether suppliers where they buy less than 2% of their FOB are of strategic relevance. Shortening the tail will reduce the social compliance risks the member is exposed to and will allow the member to improve working conditions in a more efficient and effective way. Also, FWF recommends FNG to actively address the topic of prices and how they relate to wages in order to be able to address root causes of wages below living wage.

## PERFORMANCE CATEGORY OVERVIEW

**Leader:** This category is for member companies who are doing exceptionally well, and are operating at an advanced level. Leaders show best practices in complex areas such as living wages and freedom of association.

**Good:** It is FWF's belief that member companies who are making a serious effort to implement the Code of Labour Practices—the vast majority of FWF member companies—are 'doing good' and deserve to be recognized as such. They are also doing more than the average clothing company, and have allowed their internal processes to be examined and publicly reported on by an independent NGO. The majority of member companies will receive a 'Good' rating.

**Needs Improvement:** Member companies are most likely to find themselves in this category when major unexpected problems have arisen, or if they are unable or unwilling to seriously work towards CoLP implementation. Member companies may be in this category for one year only after which they should either move up to Good, or will be moved to suspended.

**Suspended:** Member companies who either fail to meet one of the Basic Requirements, have had major internal changes which means membership must be put on hold for a maximum of one year, or have been in Needs Improvement for more than one year. Member companies may remain in this category for one year maximum, after which termination proceedings will come into force.

Categories are calculated based on a combination of benchmarking score and the percentage of own production under monitoring. The specific requirements for each category are outlined in the Brand Performance Check Guide.

## 1. PURCHASING PRACTICES

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.1a Percentage of production volume from production locations where member company buys at least 10% of production capacity.	32%	Member companies with less than 10% of a production location's production capacity generally have limited influence on production location managers to make changes.	Supplier information provided by member company.	2	4	0

Comment: In 2017, 32% of FNG's production volume came from production locations where it buys at least 10% of production capacity.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.1b Percentage of production volume from production locations where member company buys less than 2% of its total FOB.	22%	FWF provides incentives to clothing brands to consolidate their supplier base, especially at the tail end, as much as possible, and rewards those members who have a small tail end. Shortening the tail end reduces social compliance risks and enhances the impact of efficient use of capital and remediation efforts.	Production location information as provided to FWF.	0	4	0

Comment: In 2017, 22% of FNG's production volume came from production locations where it buys less than 2% of FOB.

**Recommendation:** FWF recommends FNG to consolidate its supply base by limiting the number of suppliers in its 'tail end'. To achieve this, members should determine whether suppliers where they buy less than 2% of their FOB are of strategic relevance. Shortening the tail will reduce the social compliance risks the member is exposed to and will allow the member to improve working conditions in a more efficient and effective way.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.2 Percentage of production volume from production locations where a business relationship has existed for at least five years.	10%	Stable business relationships support most aspects of the Code of Labour Practices, and give production locations a reason to invest in improving working conditions.	Supplier information provided by member company.	1	4	0

**Comment:** In 2017, 10% of production volume came from production locations where a business relationship has existed for over five years. This is partly because FNG's Design brand started less than five years ago and therefore it is not possible to have long term relationships yet.

**Recommendation:** FWF recommends FNG to maintain stable business relationships with suppliers. Long term relationships support most aspects of the Code of Labour Practices, and give factories a reason to invest in improving working conditions. It is advised to describe policies regarding maintaining long term business relationship in a sourcing strategy that is agreed upon with top management/sourcing staff.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.3 All new production locations are required to sign and return the questionnaire with the Code of Labour Practices before first bulk orders are placed.	Yes	The CoLP is the foundation of all work between production locations and brands, and the first step in developing a commitment to improvements.	Signed CoLPs are on file.	2	2	0

**Comment:** As FNG became a FWF member in 2017, they have developed a procedure requiring all new production locations to sign and return the questionnaire with the Code of Labour Practices before first bulk orders are placed, as part of their general vendor policy. This has been implemented for new suppliers. However, during the performance check not all questionnaires for existing production locations were on file.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.4 Member company conducts human rights due diligence at all (new) production locations before placing orders.	Intermediate	Due diligence helps to identify, prevent and mitigate potential human rights problems at suppliers.	Documentation may include pre-audits, existing audits, other types of risk assessments.	2	4	0

Comment: In 2017, FNG developed a country risk matrix, indicating the human rights risk per country, based on external information. In 2018, this matrix will be complemented by internal information from audit reports from all brands within FNG Group (FWF members and non-FWF members). In addition, FNG Group has local staff in China, Turkey and India who keep up to date on human rights information and visit production locations before production starts.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.5 Production location compliance with Code of Labour Practices is evaluated in a systematic manner.	Yes	A systemic approach is required to integrate social compliance into normal business processes, and supports good decisionmaking.	Documentation of systemic approach: rating systems, checklists, databases, etc.	1	2	0

Comment: In 2017, a supplier evaluation system has been developed individually by the representatives from the three main production countries. At the end of 2017 this has been transferred into a more general system, which in 2018 will lead to production decisions.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.6 The member company's production planning systems support reasonable working hours.	General or ad-hoc system.	Member company production planning systems can have a significant impact on the levels of excessive overtime at production locations.	Documentation of robust planning systems.	2	4	0

Comment: FNG shares the seasonal calendars and most important dates and deadlines with suppliers as well as the projected number of styles. This allows its suppliers to study their own deadlines/capacity and procurement. Also, the company has established a production planning department in the local offices to boost the forecasting and possible bottlenecks to guard lead times.

Recommendation: A good production planning system needs to be established based on the production capacity of the factory for regular working hours.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.7 Degree to which member company mitigates root causes of excessive overtime.	Intermediate efforts	Some production delays are outside of the control of member companies; however there are a number of steps that can be taken to address production delays without resorting to excessive overtime.	Evidence of how member responds to excessive overtime and strategies that help reduce the risk of excessive overtime, such as: root cause analysis, reports, correspondence with factories, etc.	3	6	0

Comment: Excessive overtime is a major issue, especially at production locations in China. FNG's local representative in China has done a root cause analysis of 40 factories. The main finding was that excessive overtime is related to the piece rate system. The results have been discussed with the factories and FNG plans to start working on mitigating these root causes.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.8 Member company's pricing policy allows for payment of at least the legal minimum wages in production countries.	No policy in place	The first step towards ensuring the payment of minimum wages - and towards implementation of living wages - is to know the labour costs of garments.	Formal systems to calculate labour costs on per-product or country/city level.	0	4	0

Comment: In 2017, FNG did not know how its prices relate to wages and whether they were sufficient to pay at least the legal minimum wage.

**Recommendation:** At a minimum, member companies are recommended to investigate wages levels in production countries, among others by making use of FWFs Wage Ladder and country studies. As an advanced step, increased transparency in costing and productivity gives insight in the labour costs per product. This forms the basis for ensuring enough is paid to cover at least minimum wage and for making steps towards living wages.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.9 Member company actively responds if suppliers fail to pay legal minimum wages.	No minimum wage problems reported	If a supplier fails to pay minimum wage, FWF member companies are expected to hold management of the supplier accountable for respecting local labour law.	Complaint reports, CAPs, additional emails, FWF audit reports or other documents that show minimum wage issue is reported/resolved.	2	2	-2

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.10 Evidence of late payments to suppliers by member company.	No	Late payments to suppliers can have a negative impact on production locations and their ability to pay workers on time. Most garment workers have minimal savings, and even a brief delay in payments can cause serious problems.	Based on a complaint or audit report; review of production location and member company financial documents.	0	0	-1

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.11 Degree to which member company assesses root causes of wages lower than living wages with suppliers and takes steps towards the implementation of living wages.	No efforts shown.	Sustained progress towards living wages requires adjustments to member companies' policies.	Documentation of policy assessments and/or concrete progress towards living wages.	0	8	0

**Comment:** As 2017 was FNG's first year of membership, the company had to set priorities and discussing root causes of wages lower than living wages was not one of them. This will be part of the activities planned for 2018.

**Requirement:** FNG is expected to take an active role in discussing living wages with its suppliers. The FWF wage ladder can be used as a tool to implement living wages. Most relevant wage estimates, such as local minimum wage, Asia Floor Wage, collective bargaining wage and industrial best practice wages are provided in the wage ladder. The wage ladder is included in FWF's audit reports. It demonstrates the gaps between workers' wages at a factory and living wages demanded by major stakeholders. The wage ladder can be used to document, monitor, negotiate and evaluate the improvements at its suppliers.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
1.12 Percentage of production volume from factories owned by the member company (bonus indicator).	None	Owning a supplier increases the accountability and reduces the risk of unexpected CoLP violations. Given these advantages, this is a bonus indicator. Extra points are possible, but the indicator will not negatively affect an member company's score.	Supplier information provided by member company.	N/A	2	0

## PURCHASING PRACTICES

Possible Points: 44

Earned Points: 15

## 2. MONITORING AND REMEDIATION

BASIC MEASUREMENTS	RESULT	COMMENTS
% of own production under standard monitoring (excluding low-risk countries)	66%	
% of production volume where monitoring requirements for low-risk countries are fulfilled	3%	FWF low risk policy should be implemented. 0 = policy is not implemented correctly. N/A = no production in low risk countries.
Meets monitoring requirements for tail-end production locations.	N/A	1st or 2nd year member and tail-end monitoring requirements do not apply.
Total of own production under monitoring	69%	Minimums: 1 year: 40%; 2 years 60%; 3 years+: 80-100% Measured as a percentage of turnover.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.1 Specific staff person is designated to follow up on problems identified by monitoring system	Yes	Followup is a serious part of FWF membership, and cannot be successfully managed on an ad-hoc basis.	Manuals, emails, etc., demonstrating who the designated staff person is.	2	2	-2

Comment: FNG has a CSR department that is designated to follow up on problems identified by the monitoring system.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.2 Quality of own auditing system meets FWF standards.	Member makes use of FWF audits and/or external audits only	In case FWF teams cannot be used, the member companies' own auditing system must ensure sufficient quality in order for FWF to approve the auditing system.	Information on audit methodology.	N/A	0	-1

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.3 Audit Report and Corrective Action Plan (CAP) findings are shared with factory and worker representation where applicable. Improvement timelines are established in a timely manner.	Yes	2 part indicator: FWF audit reports were shared and discussed with suppliers within two months of audit receipt AND a reasonable time frame was specified for resolving findings.	Corrective Action Plans, emails; findings of followup audits; brand representative present during audit exit meeting, etc.	2	2	-1

Comment: Audit reports and CAPs are shared either directly with the factory or through the agent and improvement timelines are agreed upon.

Recommendation: FWF recommends FNG to ensure audit reports are shared with worker representatives where applicable.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.4 Degree of progress towards resolution of existing Corrective Action Plans and remediation of identified problems.	Intermediate	FWF considers efforts to resolve CAPs to be one of the most important things that member companies can do towards improving working conditions.	CAP-related documentation including status of findings, documentation of remediation and follow up actions taken by member. Reports of quality assessments. Evidence of understanding relevant issues.	6	8	-2

**Comment:** FNG could show active follow-up on existing Corrective Action Plans. The company uses the Excel format provided by FWF, also for external audits, to monitor progress. This Excel file is shared through Google docs, so suppliers can easily access it and provide feedback. In 2017, FNG hired local staff in Turkey, India and China, they have been actively following-up on existing CAPs together with factory management. During the past financial year, all attention was geared towards addressing factory-level issues rather than root cause analyses.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.5 Percentage of production volume from production locations that have been visited by the member company in the previous financial year.	79%	Formal audits should be augmented by annual visits by member company staff or local representatives. They reinforce to production location managers that member companies are serious about implementing the Code of Labour Practices.	Member companies should document all production location visits with at least the date and name of the visitor.	4	4	0

**Comment:** Production locations responsible for 79% of production volume have been visited by (representatives of) FNG in 2017.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.6 Existing audit reports from other sources are collected.	Yes, quality assessed and corrective actions implemented	Existing reports form a basis for understanding the issues and strengths of a supplier, and reduces duplicative work.	Audit reports are on file; evidence of followup on prior CAPs. Reports of quality assessments.	3	3	0

**Comment:** In 2017, FNG collected external audit reports, assessed the quality using the FWF Audit Quality Assessment Tool, created a corrective action plan and showed active follow-up.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.7 Compliance with FWF risk policies.	Average score depending on the number of applicable policies and results	Aside from regular monitoring and remediation requirements under FWF membership, countries, specific areas within countries or specific product groups may pose specific risks that require additional steps to address and remediate those risks. FWF requires member companies to be aware of those risks and implement policy requirements as prescribed by FWF.	Policy documents, inspection reports, evidence of cooperation with other customers sourcing at the same factories, reports of meetings with suppliers, reports of additional activities and/or attendance lists as mentioned in policy documents.	5	6	0
Compliance with FWF enhanced monitoring programme Bangladesh	Policies are not relevant to the company's supply chain			N/A	6	-2
Compliance with FWF Myanmar policy	Policies are not relevant to the company's supply chain			N/A	6	-2
Compliance with FWF guidance on abrasive blasting	Advanced			6	6	-2
Compliance with FWF guidance on risks related to Turkish garment factories employing Syrian refugees	Intermediate			3	6	-2
Other risks specific to the member's supply chain are addressed by its monitoring system	Policies are not relevant to the company's supply chain			N/A	6	-2

**Comment:** FNG produces in several factories in Turkey. The local CSR Officer has visited all production locations in the country, conducted full initial factory audits and has been closely following up on the improvements from the Corrective Action Plans, specifically focusing on age verification systems, Health & Safety issues and Syrian immigrants (together with a Turkish NGO). For 2018 a refugee policy for Turkey will be drafted.

FNG has a policy outlining its approach to prevention of abrasive blasting and informs and monitors its suppliers of denim.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.8 Member company cooperates with other FWF member companies in resolving corrective actions at shared suppliers.	Active cooperation	Cooperation between customers increases leverage and chances of successful outcomes. Cooperation also reduces the chances of a factory having to conduct multiple Corrective Action Plans about the same issue with multiple customers.	Shared CAPs, evidence of cooperation with other customers.	2	2	-1

**Comment:** FNG actively cooperates with other FWF members in resolving corrective actions at shared suppliers. In addition, the company closely cooperates with its non-FWF member brands within the Group to increase leverage at production locations.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.9 Percentage of production volume where monitoring requirements for low-risk countries are fulfilled.	0-49%	Low-risk countries are determined by the presence and proper functioning of institutions which can guarantee compliance with national and international standards and laws.	Documentation of visits, notification of suppliers of FWF membership; posting of worker information sheets, completed questionnaires.	0	2	0

**Comment:** Monitoring requirements for low-risk countries were fulfilled for 48% of total production in these countries.

Recommendation: FWF recommends FNG to ensure it fulfills monitoring requirements for low-risk countries.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.10 Extra bonus indicator: in case FWF member company conducts full audits above the minimum required monitoring threshold.	Not applicable	FWF encourages all of its members to audit/monitor 100% of its production locations and rewards those members who conduct full audits above the minimum required monitoring threshold.	Production location information as provided to FWF and recent Audit Reports.	N/A	3	0

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.11 Questionnaire is sent and information is collected from external brands resold by the member company.	Yes	FWF believes it is important for affiliates that have a retail/wholesale arm to at least know if the brands they resell are members of FWF or a similar organisation, and in which countries those brands produce goods.	Questionnaires are on file.	1	2	0

Comment: FNG sells a number of external brands and shared the questionnaire with all of them. However, they have not yet received back all of the questionnaires.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.12 External brands resold by member companies that are members of another credible initiative (% of external sales volume).	0%	FWF believes members who resell products should be rewarded for choosing to sell external brands who also take their supply chain responsibilities seriously and are open about in which countries they produce goods.	External production data in FWF's information management system. Documentation of sales volumes of products made by FWF or FLA members.	0	3	0

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
2.13 Questionnaire is sent and information is collected from licensees.	No licensees	FWF believes it is important for member companies to know if the licensee is committed to the implementation of the same labour standards and has a monitoring system in place.	Questionnaires are on file. Contracts with licensees.	N/A	1	0

---

## MONITORING AND REMEDIATION

Possible Points: 34

Earned Points: 25

---

### 3. COMPLAINTS HANDLING

BASIC MEASUREMENTS	RESULT	COMMENTS
Number of worker complaints received since last check	0	At this point, FWF considers a high number of complaints as a positive indicator, as it shows that workers are aware of and making use of the complaints system.
Number of worker complaints in process of being resolved	0	
Number of worker complaints resolved since last check	0	

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
3.1 A specific employee has been designated to address worker complaints	Yes	Followup is a serious part of FWF membership, and cannot be successfully managed on an ad-hoc basis.	Manuals, emails, etc., demonstrating who the designated staff person is.	1	1	-1

Comment: FNG's CSR department is designated to address worker complaints.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
3.2 System is in place to check that the Worker Information Sheet is posted in factories.	Yes	The Worker Information Sheet is a key first step in alerting workers to their rights.	Photos by company staff, audit reports, checklists from production location visits, etc.	2	2	0

Comment: FNG requires all production locations to share a picture of the posted worker information sheet at the beginning of production. These pictures are saved on the company server. Next, all staff visiting production locations will take pictures of worker information sheets.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
3.3 Percentage of FWF-audited production locations where at least half of workers are aware of the FWF worker helpline.	62%	The FWF complaints procedure is a crucial element of verification. If production location based complaint systems do not exist or do not work, the FWF worker helpline allows workers to ask questions about their rights and file complaints. Production location participation in the Workplace Education Programme also count towards this indicator.	Percentage of audited production locations where at least 50% of interviewed workers indicate awareness of the FWF complaints mechanism + percentage of production locations in WEP programme.	3	4	0

Comment: At 62% of audited locations was at least half of the workers aware of the FWF worker helpline.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
3.4 All complaints received from production location workers are addressed in accordance with the FWF Complaints Procedure	No complaints received	Providing access to remedy when problems arise is a key element of responsible supply chain management. Member company involvement is often essential to resolving issues.	Documentation that member company has completed all required steps in the complaints handling process.	N/A	6	-2

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
3.5 Cooperation with other customers in addressing worker complaints at shared suppliers	No complaints or cooperation not possible / necessary	Because most production locations supply several customers with products, involvement of other customers by the FWF member company can be critical in resolving a complaint at a supplier.	Documentation of joint efforts, e.g. emails, sharing of complaint data, etc.	N/A	2	0

---

## COMPLAINTS HANDLING

Possible Points: 7

Earned Points: 6

---

## 4. TRAINING AND CAPACITY BUILDING

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
4.1 All staff at member company are made aware of FWF membership.	Yes	Preventing and remediating problems often requires the involvement of many different departments; making all staff aware of FWF membership requirements helps to support cross-departmental collaboration when needed.	Emails, trainings, presentation, newsletters, etc.	1	1	-1

Comment: At the start of FNG's membership in 2017, FWF provided a general introductory presentation to all staff and a bit more detailed presentation to buying and marketing/communication. In addition, FNG communicates on its FWF membership to its shop assistants during sales presentations, which happen at least twice a year.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
4.2 All staff in direct contact with suppliers are informed of FWF requirements.	Yes	Sourcing, purchasing and CSR staff at a minimum should possess the knowledge necessary to implement FWF requirements and advocate for change within their organisations.	FWF Seminars or equivalent trainings provided; presentations, curricula, etc.	2	2	-1

Comment: FWF provided a training in 2017 for all staff in direct contact with suppliers. In addition, the CSR manager ensures she keeps everyone updated on requirements and information.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
4.3 All sourcing contractors/agents are informed about FWF's Code of Labour Practices.	Yes	Agents have the potential to either support or disrupt CoLP implementation. It is the responsibility of member company to ensure agents actively support the implementation of the CoLP.	Correspondence with agents, trainings for agents, FWF audit findings.	1	2	0

Comment: FNG uses agents mostly in Portugal and they have been informed about FWF's Code of Labour Practice during visits.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
4.4 Production location participation in Workplace Education Programme (where WEP is offered; by production volume)	0%	Lack of knowledge and skills on best practices related to labour standards is a common issue in production locations. Good quality training of workers and managers is a key step towards sustainable improvements.	Documentation of relevant trainings; participation in Workplace Education Programme.	0	6	0

Comment: None of FNG's production locations participated in FWF's Workplace Education Programme. In 2017, local representatives provided trainings to factory management about FWF's Code of Labour Practice.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
4.5 Production location participation in trainings (where WEP is not offered; by production volume)	All production is in WEP areas.	In areas where the Workplace Education Programme is not yet offered, member companies may arrange trainings on their own or work with other training-partners. Trainings must meet FWF quality standards to receive credit for this indicator.	Curricula, other documentation of training content, participation and outcomes.	N/A	4	0

## TRAINING AND CAPACITY BUILDING

Possible Points: 11

**Earned Points: 4**

## 5. INFORMATION MANAGEMENT

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
5.1 Level of effort to identify all production locations	Intermediate	Any improvements to supply chains require member companies to first know all of their production locations.	Supplier information provided by member company. Financial records of previous financial year. Documented efforts by member company to update supplier information from its monitoring activities.	3	6	-2

Comment: FNG became a member in 2017, since then it has been trying to get additional information from all its production locations. The company was successful in most instances, where it could also indicate specific subcontractors used for FNG. However, there were also some production locations where information was still missing.

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
5.2 CSR and other relevant staff actively share information with each other about working conditions at production locations.	Yes	CSR, purchasing and other staff who interact with suppliers need to be able to share information in order to establish a coherent and effective strategy for improvements.	Internal information system; status CAPs, reports of meetings of purchasing/CSR; systematic way of storing information.	1	1	-1

Comment: The CSR manager has a meeting every week with buyers to give each other updates about developments.

---

## INFORMATION MANAGEMENT

Possible Points: 7

Earned Points: 4

---

## 6. TRANSPARENCY

PERFORMANCE INDICATORS	RESULT	RELEVANCE OF INDICATOR	DOCUMENTATION	SCORE	MAX	MIN
6.1 Degree of member company compliance with FWF Communications Policy.	Minimum communications requirements are met AND no significant problems found	FWF's communications policy exists to ensure transparency for consumers and stakeholders, and to ensure that member communications about FWF are accurate. Members will be held accountable for their own communications as well as the communications behaviour of 3rd-party retailers, resellers and customers.	FWF membership is communicated on member's website; other communications in line with FWF communications policy.	2	2	-3

Comment: FNG communicates about FWF membership on its Dutch CKS and Fred & Ginger website.
